Shadowing, Ergodic Shadowing And Uniform Spaces

With Topological Shadowing Property Implies Topological Ergodicity. 1. Introduction The Notion Of

Shadowing, introduced in the 1970s independently by Anosov [1] and Bowen [5], is a well known property in the qualitative theory of dynamical systems [6, 10–12, 14]. This concept is motivated by computer simulations. In fact, let X be a set and $F \dots$ Mar 24th, 2020
